

# Are you considering a return to your nursing career?

The part-time Return to Practice programme at Aberystwyth University provides you with an inclusive learning experience which meets the Nursing and Midwifery Council's Return to Practice Standards (2019) and enables you to apply for readmission to the professional register as an autonomous registered healthcare practitioner.

In addition, by working alongside our Practice Learning Partners in the locality, employment opportunities will be available for you to explore when you successfully complete the programme.

If you want to learn more about this exciting new programme, please contact Darren Prince, Return to Practice Scheme Coordinator on [nrsstaff@aber.ac.uk](mailto:nrsstaff@aber.ac.uk)

We look forward to hearing from you soon.
