

## SCOTT BLAIR LIBRARY REPRINTS

The following is a list of reprints of previously published materials on the subject of Rheology dating back to 1905 arranged alphabetically by surname. For further information please contact Dr Sahm Nikoi, Physical Sciences Library on: E-Mail: [skn@aber.ac.uk](mailto:skn@aber.ac.uk) telephone number: 01970 622080.

Mae'r canlynol yn rhestr o ailgraffiadau o erthyglau ar bwnc Rheoleg a gyhoeddwyd eisoes, yn dyddio'n ôl i 1905. Am fwy o wybodaeth, a fydddech cystal â chysylltu â Dr Sahm Nikoi, Llyfrgell y Gwyddorau Ffisegol ar e-bost [akn@aber.ac.uk](mailto:akn@aber.ac.uk) neu ffôn 01970 622080

### A

1. ABBOTT, B. C. & LOWY, J. (1956) On the identity of the muscle constant  $a$  derived thermally and mechanically. *Journal of Physiology-London*, 133, 36-37. S.B. 1498A.
2. ABBOTT, B. C. & LOWY, J. (1957) Stress relaxation in muscle. *Proceedings of the Royal Society B*, 146, 280-288. S.B. 1498B.
3. ABERE, J. E. A. (1943) Recent results on the kinetics and elementary steps of polyreactions. *Annals of the New York Academy of Sciences*, 44, 267-296. S.B. 499.
4. ABIR, D., MANOR, H. & REINER, M. (1965) The solid viscosity of mild steel. IN ABIR, D., OLLENDORFF, F. & REINER, M. (Eds.) *Topics in applied mechanics: memorial volume to the late Professor Edwin Schwerin*. Amsterdam, Pergamon Press. S.B. 1974E.
5. ACUM, W. E. A. & FOX, L. (1951) Computation of load stresses in a three-layer elastic system. *Geotechnique*, 293-300. S.B. 1002.
6. ADDA, J. E. A. (1967) Essais d'utilisation d'un spectrophotometre infra-rouge (infra-re milk analyzer) permettant de determiner la teneur du lait en matiere grasse, matiere azotee et lactose. *Bulletin du Technique d'Information*, 225. S.B. 2167.
7. ADKINS, J. E. (1954) Some generalizations of the shear problem for isotropic incompressible materials. *Proceedings of the Cambridge Philosophical Society*, 50, 334-345. S.B. 1252.
8. ADKINS, J. E. (1955) Finite deformation of materials exhibiting curvilinear aeolotropy. *Proceedings of the Royal Society A*, 229, 119-134. S.B. 1311.

9. ADKINS, J. E. (1955) Some general results in the theory of large elastic deformations. *Proceedings of the Royal Society A*, 231, 75-90. S.B. 1334.
10. ADKINS, J. E. & GENT, A. N. (1954) Load-deflexion relations of rubber bush mountings. *British Journal of Applied Physics*, 5, 354-358. S.B. 1293.
11. ADKINS, J. E. & RIVLIN, R. S. (1952) Large elastic deformations of isotropic materials. 9: the deformation of thin shells. *Philosophical Transactions of the Royal Society Series A*, 244, 507-531. S.B. 1051.
12. ADKINS, J. E. & RIVLIN, R. S. (1955) Large elastic deformations of isotropic materials. 10: reinforcement by inextensible cords. *Philosophical Transactions of the Royal Society Series A*, 248, 201-223. S.B. 1354.
13. ALAIS, C. (1963) Etude de la liberation de l'azote, du phosphore et de l'acide sialique non proteiques, au cours de l'action de la presure sur la caseine. *A.I.Ch.E. Journal*, 3, 391-404. S.B. 2003G.
14. ALAIS, C. (1963) L'action de la presure sur la caseine (1). *Lait*, Sept.-Oct., 8p. S.B. 2003F.
15. ALAIS, C. (1964) Action de l'acide acetique et de l'acide trichloracetique sur la caseine. *Annales de Biologie Animale, Biochimie, Biophysique*, 4, 79-90. S.B. 2003A.
16. ALAIS, C. (1964) La constitution de la caseine. *Le Lait*, 44, 369-377. S.B. 2003H.
17. ALAIS, C. (1965) Influence de divers traitements sur l'aptitude du lait a la coagulation par la presure. *L'Industrie Laitere*, 218 and 219. S.B. 2003.
18. ALAIS, C., BLONDEL-QUEROIX, J. & JOLLES, P. (1964) Etude des substances solubles formees au cours de la reaction de la presure sur la caseine. 2: composition chimique. *Bulletin de la Societe de Chimie Biologique*, 46, 973-980. S.B. 2003C.
19. ALAIS, C., DUTHEIL, H. & BOSCH, J. (1962) Caractere specifique des presures extraits des caillettes d'agneaux et de veaux et des caseines de brebis et de vache. *16 th International Dairy Congress*. Copenhagen. S.B. 1844.
20. ALAIS, C. & JOLLES, P. (1961) Etude comparee des caseino-glycopeptides formes par action de la presure sur les caseines de vache, debrebis et de chevre. 2: Etude de la partie non-peptidique. *Biochimica et Biophysica Acta*, 51, 315-322. S.B. 1766B.
21. ALAIS, C. & JOLLES, P. (1964) L'action de la presure sur la caseine. *Le Lait*, 138-272.
22. ALEXANDER, L. T. & SHAW, T. M. (1937?) Determination of ice-water relationships by measurement of dielectric constant changes. S.B. 71.

23. ALEXANDER, L. T., SHAW, T. M. & MUCKENHIRN, R. J. (1937) Detection of freezing point by dielectric measurements. *Soil Science Society of America Proceedings*, 1, S.B. 56.
24. ALFREY, T. & DOTY, P. (1945) The methods of specifying the properties of viscoelastic materials. *Journal of Applied Physics*, 16, 700-713. S.B. 600.
25. ALFREY, T., GOLDFINGER, G. & MARK, H. (1943) The apparent second-order transition point of polystyrene. *Journal of Applied Physics*, 14, 700-705. S.B. 500.
26. ALFREY, T. E. A. (1943) Comparative osmotic and viscosity measurements with polystyrene fractions. *Journal of the American Chemical Society*, 65, 2319-2323. S.B. 497.
27. ALLEN, F. (1948) Representation of psychological data by sigmoid and linear logarithmic graphs. *Philosophical Magazine Series 7*, 39, 614-621. S.B. 795.
28. ALLEN, F. & SCHWARTZ, M. (1940) The effect of stimulation of the senses of vision, hearing, taste and smell upon the sensibility of the organs of vision. *Journal of General Physiology*, 24, 105-121. S.B. 796.
29. AMOS, A. J. (1949) Rheological methods in the milling and baking industries. *The Analyst: the journal of the Society of Public Analysts and other Analytical Chemists*, 74, 392-396. S.B. 841.
30. ANDERSON, E. B., HERSCHDORFER, Z. & NEAVE, F. K. (1937) The enzymes of milk 1: some notes on Kay and Graham's phosphatase test. *The Analyst: the journal of the Society of Public Analysts and other Analytical Chemists*, 62, 86-95. S.B. 66.
31. ANDERSON, Z. E. (1959) Our industry today: current dietary recommendations for the prevention and treatment of coronary heart disease and what they mean to the dairy industry. *Journal of Dairy Science*, 42, 1401-1409. S.B. 1612.
32. ANDERSSON, O., IVARSSON, B., NISSAN, A. H. & STEENBERG, B. (1949) Graphical analysis of stress/strain curves for paper. *57th General conference*. Connaught Rooms, London. S.B. 799.
33. ANDERSSON, Y., DRAKE, B., GRANQUIST, A., HALLDIN, L., JOHANSSON, B., PANGBORN, R. M. & ÅKESSON, C. (1973) Fracture force, hardness and brittleness in crisp bread, with a generalized regression analysis approach to instrumental-sensory comparisons. *Journal of texture studies*, 4, 119-144. S.B. 2374.
34. ANDRADE, C. & ANDRADE, E. N. (1931) A viscosity paradox. *Transactions of the Faraday Society*, 27, 201-203. S.B. 878.
